Field work dates: Every Friday AM Sept 15th to Oct 21st , 2022

Co-Instructors
Clint Jacobs, email: clint.jacobs.wifn.org       Desmond Moser, email: desmond.moser@uwo.ca
                                          519-661-2111 ex: 84214

Teaching Assistant: Zakara Stampp (zstampp@uwo.ca)

1. Course Description

This semi-remote field course immerses students in Indigenous peoples’ perspectives on reciprocity, restoration, invasive species remediation, land stewardship, and connections to, and responsibilities to, land and water. Instruction will primarily be by community leaders and elders based at Bkejwanong Territory (Walpole Island First Nation). Community-based research embodies Indigenous concepts of reciprocity. This means that students will not be the sole beneficiaries of knowledge gained in the course. In this reconfigured version of the field course, activities will take place on the campus of the UWO which is situated on a part of Turtle Island for which Great Lakes peoples have been in a relationship of responsibility for millennia. Students will come to know and respect the campus area in this context, providing an indirect benefit to the longstanding stewardship responsibilities of the Bkejwanong community. Students will use their personal and collective gifts and talents to assist in activities such as habitat observation, mapping, and related research in the process of growing and/ or re-introducing native and endangered plants and trees.

First Class will be Friday, Sept 9th, 11:00 AM , BnG 1065
2. Learning Objectives

This course is designed to introduce students to the historic and contemporary realities experienced by Indigenous and non-Indigenous peoples. The approach, grounded in community-based methods, offers students a unique experience in the social, environmental, and political contexts that have shaped the lands, waters, and habitats of the region.

In this course, students will be exposed to complex social and environmental histories and situations, all with the broad goals of enhancing their overall understanding of:

- the colonial outcomes of land use and policy-making
- decolonization in a campus context
- historical and contemporary interactions between people and diverse ecologies
- the ways in which Indigenous and non-Indigenous peoples can work together toward common objectives

3. Course Fee

The fee for this course will be $100 payable to the undergraduate coordinator. The fees go toward remote connectivity hardware, field transport, and, if possible, an end-of-course feast (!). Unused funds will be returned to students. In the past, Social Science students have been eligible for reimbursement from the university. You can either pay online or by cash or cheque to Angelica Lucaci in the Geography and Environment main office, SSC 2322.

4. Background

Bkejwanong Territory, which in English means “Where the Waters Divide,” is home to the Anishinaabeg of Walpole Island First Nation. Their current community is situated on six islands in the St. Clair River Delta, the largest freshwater delta in North America. The traditional homeland territory of Bkejwanong extends beyond the islands to Lake Huron, the Detroit River, Lake Erie, Michigan and Southern Ontario.

Despite centuries of colonization, the Anishinaabeg still consider the traditional territory their home, and as such they have inherent rights when it comes to the development of land and waters both on the delta, often referred to as the “Reserve” and in their traditional territory. Over the past two centuries, these rights have often been ignored, or worse, attempts have been made to remove these rights by the Canadian government, non-Indigenous industries and settler society.

During this time the pre-settlement land cover of the UWO campus has been reduced to small groves of selected Carolinian trees, and isolated copses, maintained as part of the Sherwood Fox arboretum, interspersed are small patches of prairie and an Indigenous teaching garden. Along the waters of the Deshkan Ziibi (“Antler River”), renamed Thames River in 1793, are stretches of mixed Indigenous and invasive riparian plants and trees. East campus includes the junction of the Deshkan Ziibi with the Medway Creek tributary which drains a remarkably biodiverse area of rare plants and fresh water mussels within the City of London. First Nations dwellings along the Medway Creek date back 1000’s of years. While much of Walpole Island remains biologically diverse, it too faces pressures from development and degradation. Nevertheless, it stands out as a biodiversity giant among the intensely farmed Carolinian zone and is home to one of the largest contiguous tracts of forests in southwestern Ontario, globally imperilled oak savannah and
tallgrass prairie remnants, one of the largest wetlands in the Great Lakes basin, and rich coastal waterways. These habitats support more than 70 species at risk.

Successive generations of agricultural, industrial, and town planning have not included Indigenous presence and land-use planning and practices, while often disregarding and degrading bioregional ecosystems. As a result, one of the current challenges facing both the Indigenous and surrounding non-Indigenous communities is to maintain and restore the remnant and marginal Carolinian forest, oak savannah, tallgrass prairie, riparian, and aquatic ecosystems. Such restoration efforts and care of existing remnant habitats are understood to be key to Indigenous cultural survival. While there are no easy solutions to the environmental challenges, in the area occupied by the UWO education about decolonizing the planning process in line with Indigenous-centered approaches is an important goal in this course.

5. Cultural awareness

Students are expected to have a basic understanding and respect of Anishinaabeg culture and the Carolinian ecozone as well as shared approaches of other First Nations in southern Ontario. Peoples of the Haudenosaunee and EELUNAAPÉEWI LAHKÉEWIIT (Delaware) cultures are also close to London, mostly downriver from the UWO campus. Appropriate ethical and cultural respect will be expected of all students throughout the duration of the course. Students are not expected to be cultural experts, and relevant cultural understandings will be shared with the students as part of the learning process. Specifically, the concept of reciprocity as it relates to the 'host' Anishinaabeg community at Bkejwanong will be used as a pedagogical tool before, during, and after our community-guided experience.

6. Preparation

Students will have a mandatory orientation and logistical meeting prior to the trip (likely in early March). For the field work in May, students are expected to bring the following items:

- a smart phone for GPS work and photography (a few devices can be made available for signout as necessary)
- Personal medication, notification of potential health related issues, allergies, sensitivities, and emergency contact information / health card.
- Personal Protective Equipment (PPE) such as face masks, hand sanitizer, etc.
- Hat, water bottle, work gloves, hiking shoes, rain gear, rubber boots, safety glasses, sunscreen,
- Knapsack, clipboard, notepad, and pens or pencils, camera.

7. Course Assessment

**Reading Assignment**

Assignments on Braiding Sweetgrass: 20%

Students will submit four, written reflections on their reading of the course textbook “Braiding Sweetgrass” available as a downloadable ebook at UWO library.

Each reflection should be one to two pages in length. If you’ve already read the book, it’s worth going back. It is also very rich so try not to rush it.

We have divided the book in to four groups of sections;

**Reflection 1** on the chapters in the sections “Planting Sweetgrass” and “Tending Sweetgrass” DUE SEPT 30 in your OWL dropbox

**Reflection 2** on the chapters in the section “Picking Sweetgrass” DUE OCT 15

**Reflection 3** on the chapters in the section “Braiding Sweetgrass” DUE NOV 10

**Reflection 4** on the chapters in the section “Burning Sweetgrass” DUE DEC 2

**Personal Reflections** 25%

At the end of each field day students will write about the day’s activities and record, on loose-leaf paper or a journal, their thoughts, questions, and insights into what they’ve learned. Students may also be asked by the instructors to consider a short, question relating to course material and daily encounters. Please upload your reflections/responses to OWL weekly.

**Individual Project** 40%

By Friday, Oct 7th, students will identify a project that is realizable by the end of term. This project will be developed in consultation with the instructors. The project must fall within the scope of the course philosophy and community needs identified by members of the Walpole Island Heritage Centre, and focus on some aspect of restoration or cultural protocol, with an ethic of reciprocity. If the project is a paper, the topic and focus of the paper will be determined in conversation with the instructors. Project examples: Adventive species removal from campus site, vegetation and soil observations, species identification and mapping, pollinator and tree planting, care and weeding, water monitoring, educational treaty resources and documentation. **DUE by Friday, DEC 9th**.

**Photographic Portfolio** 5%

For this assignment you will prepare a digital folder or powerpoint-type file with up to ten (10) images taken by you on the trip. Images can be of nature, culture, people, adventure, geography, etc. and are to be delivered in full resolution to the instructors, **DUE by Friday, OCT 28th, 2022** (~two weeks after field work). The up-to-10 pictures per person will be shown to the whole group at a post-fieldwork gathering. You must accompany your collection with a text file (in softcopy PDF format) that contains a brief Title and Caption for each picture or you can embed this in the powerpoint/keynote file.

**Participation** 10%

8. **Location and Nature of Activities**
This is a semi-remote field course guided by elders and knowledge holders at Walpole Island First Nation/ Bkejwanong Territory.

**Classroom:** most days we will meet near the field site (see below) but for the first class, and in bad weather, we will use Rm. 1065 in the Biological and Geological Sciences Building.

**Field work:** We will meet every Friday at 8:30 AM at Ross Park on Richmond St. (see google map link below) starting Friday Sept. 15th  Students should expect to be out of doors for the full morning and ready to start at 8:30.
Meet at: [https://goo.gl/maps/62VTaNPNYAzHraz9](https://goo.gl/maps/62VTaNPNYAzHraz9)

**Bkejwanong day visit:** On Saturday Oct 22nd*, we will travel by rental vans/cars to the Nin.Da.Waab.Jig Heritage Centre, WIFN for a day of teachings and habitat visits.
*Subject to change based on pandemic conditions and community policy on visitor access

**Course Text**

**Accommodation Policies**
Students with disabilities work with Accessible Education (formerly SSD) which provides recommendations for accommodation based on medical documentation or psychological and cognitive testing. The accommodation policy can be found here: [Academic Accommodation for Students with Disabilities](https://example.com/accommodation)

Academic Consideration for Student Absence
The University recognizes that a student's ability to meet their academic responsibilities may, on occasion, be impaired by medical illness. Illness may be acute (short term), or it may be chronic (long term), or chronic with acute episodes. The University further recognizes that medical situations are deeply personal and respects the need for privacy and confidentiality in these matters. However, in order to ensure fairness and consistency for all students, academic accommodation for work representing 10% or more of the student's overall grade in the course shall be granted only in those cases where there is documentation indicating that the student was seriously affected by illness and could not reasonably be expected to meet their academic responsibilities.

Policy on Academic Consideration for Medical Illness - Undergraduate Students
Student Medical Certificate (SMC)

Religious Accommodation
Students should consult the University's list of recognized religious holidays, and should give reasonable notice in writing, prior to the holiday, to the Instructor and an Academic Counsellor if their course requirements will be affected by a religious observance. Additional information is given in the Western Multicultural Calendar.

Continuity of Education Plan (in-person class pivoting to online learning)
In the event of a COVID-19 resurgence during the course that necessitates the university to direct courses move away from face-to-face interaction, all remaining course content will be delivered entirely online, either synchronously (i.e., at the times indicated in the timetable) or asynchronously (e.g., posted on OWL for students to view at their convenience). The grading scheme will not change. Any remaining assessments will also be conducted online as determined by the course instructor.

Information on COVID-19

Masking Guidelines
Students will be expected to wear triple layer, non-medical, paper masks at all times in the classroom as per University policy and public health directives. Students who are unable to wear a mask must seek formal accommodation through Western Accessible Education, and present medical documentation.

Students are not permitted to eat or drink while in class to ensure masks stay in place. Students will be able to eat and drink outside of the classroom during scheduled breaks. Students unwilling to wear a mask as stipulated by Western policy and public health directives will be referred to the Dean, and such actions will be considered a violation of the student Code of Conduct.

Course Absences due to Daily COVID Screening Questionnaire
Missed assessments (e.g., presentations, essays, quizzes, tests, midterms, etc.) require formal academic considerations (typically academic counselling).

Academic Offences
Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence.

Western’s Commitment to Accessibility
The Department of Geography and Environment strives at all times to provide accessibility to all faculty, staff, students and visitors in a way that respects the dignity and independence of people with disabilities.

Please contact the course instructor if you require material in an alternate format or if you require any other arrangements to make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 519-661-2147 for any specific question regarding an accommodation. Information regarding accommodation of exams is available on the Registrar’s website. More information about “Accessibility at Western” is available.
Mental Health
If you or someone you know is experiencing distress, there are several resources here at Western to assist you. Please visit Western's Health and Wellness website for more information on mental health resources.

**Western’s Support Services**
**Student Development Centre**
Western is committed to reducing incidents of gender-based and sexual violence and providing compassionate support to anyone who has gone through these traumatic events. If you have experienced sexual or gender-based violence (either recently or in the past), you will find information about support services for survivors, including emergency contacts at https://www.uwo.ca/health/student_support/survivor_support/get-help.html. To connect with a case manager or set up an appointment, please contact support@uwo.ca
