EVALUATION and OUTLINES of COURSE ASSIGNMENTS

Readings Analysis (20%)
The student will hand in a short analysis of the assigned readings - no less than one page - that will be used as a basis for discussion. Each analysis will be evaluated at 5%. The analyses will be due on a weekly basis in accordance with the reading assigned.

Research Paper (30%)
Remember: This is not a course about Indians, Aboriginals, Natives, First Nations, or whatever. It is a course about Iroquoian Peoples, predominately the Iroquois, but also the others who have constituted the Iroquoian Group. The essay must reflect some aspect of Iroquoian culture: linguistic, historical, belief and practice, livelihood (past and present), song, dance, social or political traditions, war, contact influences, education (traditional and western), etc.. The essay should be no less than 3,000 words, written without contractions, unless they occur in some reference, and most especially written in clear, concise, (short) sentences using language appropriate to the topic - please do not try to dazzle the professor with word play and unnecessary usages. Please do not hand write or use a dot matrix printer (assuming that they still exist) for your final draft unless it is of the highest quality. The essay will be due the last day of class of class . No extensions will be given, unless proper documentation is provided. 5% (of the value of the essay) per day will be levied against any late arrivals.

In-class Research Presentation (20%)
Each student will prepare an in-class research presentation on a particular aspect of Iroquoian culture or history. The presentation should be no less than 20 minutes in length using various media (optional) available to supplement the presentation. The presentation can be based on the course paper or can be related to or completely different from the essay. The professor of the class must be provided with a copy of the in-class presentation, and a smaller condensed version made available to the students in the class prior to the presentation. The presentation should be made in a clear audible voice and in a professional manner. The research presentation will be evaluated according to: visual (25%) and physical (15%) presentation; spoken presentation (30%); and the impact on and response from the students audience (30%).

Attendance and Participation (10%)
One percentage point will be deducted from the final evaluation for every class missed. Attendance is of paramount importance in a class like this as the final exam will be based totally on the in-class lectures. Students will be encouraged to participate in all discussions expressing their own thoughts and insights into the material under discussion. An email indication of last minute non-attendance will be greatly appreciated - preferably before the class begins. If you have advance knowledge of non-attendance indicating such in advance to the Professor will be expected.

Take-home Exam (20%)
A take-home exam will be handed out on the last day of class and will be due no later than seven days later.
