# HONOURS SPECIALIZATION MODULE

## The Honours Bachelor Degree (Four-Year)

The Honours Bachelor Degree (Four-Year) must include at least an Honours Specialization module or Double Major modules. Registration in an honours degree usually begins in the second year, but admission may be gained in the third or fourth year provided the student has fulfilled the Year 1 principal course requirements and has achieved a minimum cumulative module average of 70% with no mark less than 60% in the courses of the module and a passing grade in each option. Enrollment in some modules is limited and meeting the minimum requirements does not guarantee that students will be offered enrollment. Students intending to proceed for a four-year Honours degree should consider the degree requirements when selecting courses in first, second and third years. Students admitted with advanced standing to an honours program are required to complete a minimum of 10.0 courses offered by Western University or one of the Affiliated University Colleges.

## Honours Specialization Module

### Admission Requirements

Completion of first-year requirements, including at least 3.0 principal courses specified by the Department. These principal courses must be completed with a minimum average of 70% and a minimum mark of 60% in each. The remaining first-year courses must be completed successfully. Enrollment in some modules may be limited. Modules may have higher admission requirements.

### Progression Requirements

For progression in an Honours Specialization module, a student must earn a minimum cumulative modular average of 70%, a minimum mark of 60% in each course of the module and a passing grade in each option.

Higher progression standards may be required in some modules.

In exceptional circumstances, a student who earns a minimum cumulative modular average of 68%, with a minimum mark of 60% in each course of the module and a passing grade in each option, may be permitted to progress by special permission of the Dean on the recommendation of the Department concerned.

Students who fail to meet the progression requirements in an Honours Specialization may be eligible to continue in the Bachelor Degree (Four-Year) in either a Specialization module or a Major module.

### Graduation Requirements

Students must meet all graduation requirements for the Honours Bachelor Degree (Four-Year).
